

15 February 2021

Dear Parents

Thank you for your co-operation today as we navigated our first day at Level 2 since the end of August 2020.

The Ministry of Education has asked us to remind everyone that if a person was at any of the [21 locations of interest on the date and time identified on the Ministry of Health website](#) then they need to follow the advice on what to do. If families were in the North Island during Waitangi Weekend but were not at these locations and are well, then children should be attending school.

It was good to hear that there were no further community cases reported today, I'm hoping this trend will continue.

Thanks again for your co-operation and support. I will update you as soon as new information comes to hand.

Paul Dolan
Principal
